SIBLING PROJECTS

CORE runs the company. ATLAS runs the school.

- HR & Payroll — MOD-01
- IT Asset Management — MOD-02
- IT Service Desk — MOD-07

CORE POWERS PARTS OF ATLAS

ATLAS — Education platform by Lancaster

For the school's students, parents, faculty and staff.

- Learn — LMS
- People — RUNS ON CORE
- Academic — UIS

The same payroll engine

ATLAS People runs on CORE's HR & Payroll rules: the DTR, leave, SSS, PhilHealth, Pag-IBIG and BIR tax, tested once and used in both.

One design language

The same look, light and dark modes and phone layouts, so moving between the two feels familiar.

Built the same way

Self-hosted, no outside dependencies, and the same testing on every release, by the same Lancaster team.

LEARN · LMS

From first lesson to final grade.

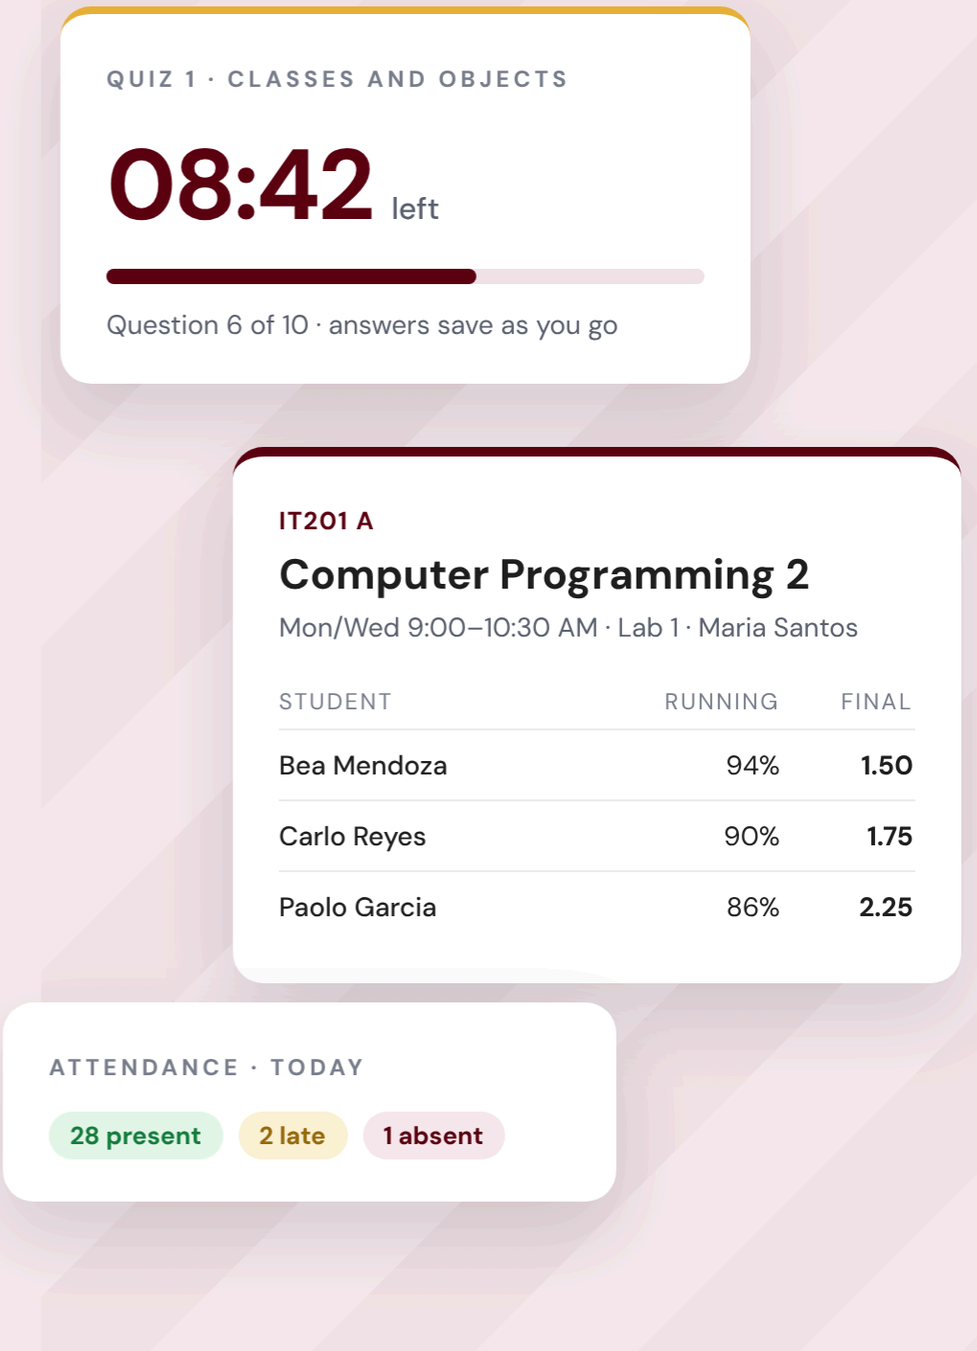

Classes, quizzes and grades share one record, so what a teacher posts today shows up where students and parents look.

Enroll with the checks built in
Prerequisites, schedule clashes and unit limits are checked; full sections take a waitlist that moves up on its own.

Timed quizzes, graded for you
Answers save as students go; essays wait for the teacher's score.

Attendance in a tap
Present, late, absent or excused, with a monthly sheet to export.

Parents in the loop
Each link shares only what the school allows: enrollment, schedule, grades, attendance.

PEOPLE · HRIS · POWERED BY CORE

From clock-in to payslip.

ATLAS People runs on CORE's HR & Payroll engine: the same rules Lancaster uses for its own people, set up for teaching and non-teaching staff.

Time clock

Clock in from My day; the DTR fills itself.

Leave and remote work

Filed online, approved by HR, with certificates.

Payroll, worked out

SSS, PhilHealth, Pag-IBIG and BIR tax per period.

Self-service

Payslips, balances and profile for every employee.

ACADEMIC · UIS

Every grade, one trail.

A grade travels from the teacher's gradebook to the permanent record with two approvals. Every change after that needs a reason and a second person.

Teacher submits 1
Straight from Learn's gradebook

Dean approves 2
Or returns it with a reason

Registrar posts 3
Locked on the permanent record

Documents with a QR check 4
TOR, COR and certificates

Genuine document
Anyone can scan the QR code and check it online.
