ATLAS Education platform by Lancaster

NOW IN ATLAS · NOVEMBER 2026

One school. One sign-in.

Classes, people, records and now the school's books, on one platform, with a calendar for everyone.

Lancaster Technology and Development Corporation · A sibling of CORE

WHAT'S INSIDE

Four systems. One sign-in.

Open each one from the ATLAS home page, or the grid button in the top bar, wherever you are.

01

Learn LMS

From the first lesson to the final grade.

- Enrollment with prerequisite and schedule checks, and waitlists
- Lessons, files, assignments and timed quizzes
- Attendance, gradebook and final grades
- A school calendar for students, teachers and parents

02

People HRIS

From the first clock-in to the payslip.

- Time clock and attendance (DTR), with clock-in locations
- Leave, credits and remote work
- Government payroll: salary grades, PERA, RATA, GSIS, bonuses
- Payslips and self-service for every employee

Powered by CORE HR & Payroll

03

Academic UIS

Records the registrar can stand behind.

- One student record, evaluated against the curriculum
- Grade sheets: teacher, dean, registrar
- TOR and certificates with a QR check
- CHED and FHE reports, ready to export

NEW

04

Finance FMIS

Government accounting, from budget to books.

- Appropriations, allotments and obligations (ORS/BURS)
- Purchase requests and orders, inventory and property
- Vouchers, checks, LDDAP-ADA and official receipts
- Journals, trial balance and financial statements

COA, DBM and BIR rules

Across all four: School calendar · Settings center · Roles & permissions · Help & guides · Keycloak single sign-on · Many campuses

SIBLING PROJECTS

CORE runs the company. ATLAS runs the school.

CORE

ERP by Lancaster

For Lancaster's own people, equipment and service work.

- HR & Payroll — MOD-01
- IT Asset Management — MOD-02
- IT Service Desk — MOD-07

CORE'S ENGINE INSIDE ATLAS

ATLAS

Education platform by Lancaster

For the school's students, parents, faculty and staff.

- Learn — LMS
- People — RUNS ON CORE
- Academic — UIS
- Finance — FED BY PEOPLE

The same payroll engine

ATLAS People's time, leave and pay rules come from CORE's HR & Payroll module. In ATLAS they also run government payroll and post it to Finance.

One design language

The same look, light and dark modes and phone layouts, so moving between the two feels familiar.

Built the same way

One Node.js program each, no outside dependencies, and the same tests on every release, by the same Lancaster team.

They share code, design and the team, not data: each runs on its own server with its own records.

PEOPLE → FINANCE · GOVERNMENT PAYROLL

From clock-in to the voucher.

Pay is worked out by the rules for a state university: salary grades (EO 64), PERA and RATA, GSIS, PhilHealth, Pag-IBIG and BIR tax, loans and the ₱5,000 net-pay floor. One click sends it to Finance, all or nothing.

PEOPLE
Clock in
My day, at the campus

PEOPLE
Attendance
DTR, leave, late and undertime

PEOPLE
Payroll run
Payslips and the General Payroll

FINANCE
Obligation
ORS by object code

FINANCE
Voucher
Certified (Box C), approved (Box D)

FINANCE
Paid and remitted
LDDAP-ADA; GSIS, PhilHealth, Pag-IBIG, BIR

Payroll · Oct 16 – 31, 2026 · Main Campus

28 employees, finalized

Gross pay	₱544,211.74
GSIS, PhilHealth, Pag-IBIG, tax, loans	(₱101,830.30)
NET PAY	₱442,381.44

Obligation request
Personnel services, fund 01
₱544,211.74

Payroll voucher
Net pay, through LDDAP-ADA
₱442,381.44

Remittance vouchers
GSIS · PhilHealth · Pag-IBIG · BIR
₱101,830.30

Demo school figures. If any step fails, nothing is posted.

FINANCE · FMIS · NEW

The school's books, by the book.

Every peso from appropriation to financial statement, with each office's work waiting for it on the dashboard.

Budget

Appropriations, allotments, NCAs, and obligations (ORS/BURS).

Procurement, inventory, property

PR to PO to IAR; stock and RIS; PAR, ICS and depreciation.

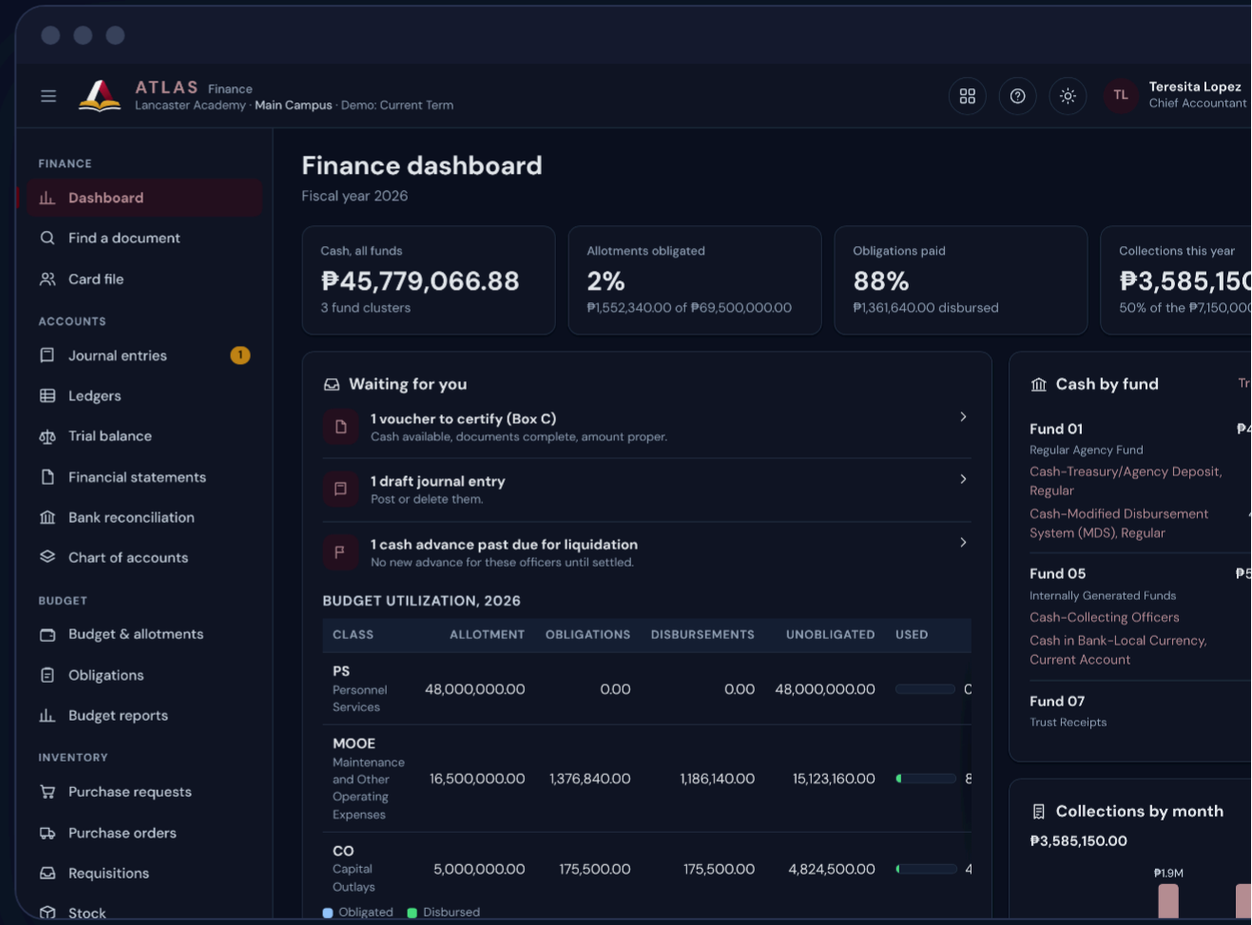

Pay and collect

Vouchers, checks, LDDAP-ADA, cash advances; official receipts and deposits.

Books and reports

Journals, ledgers, trial balance, financial statements, BIR forms.

Separation of duties: a voucher's certifier and approver must differ

LEARN · SCHOOL CALENDAR · NEW

Every class. Every due date. One calendar.

Built from what ATLAS already knows, so nobody types it twice.

Your classes and what is due

With a check mark when work is handed in, and a flag when it is missing.

Holidays cancel classes

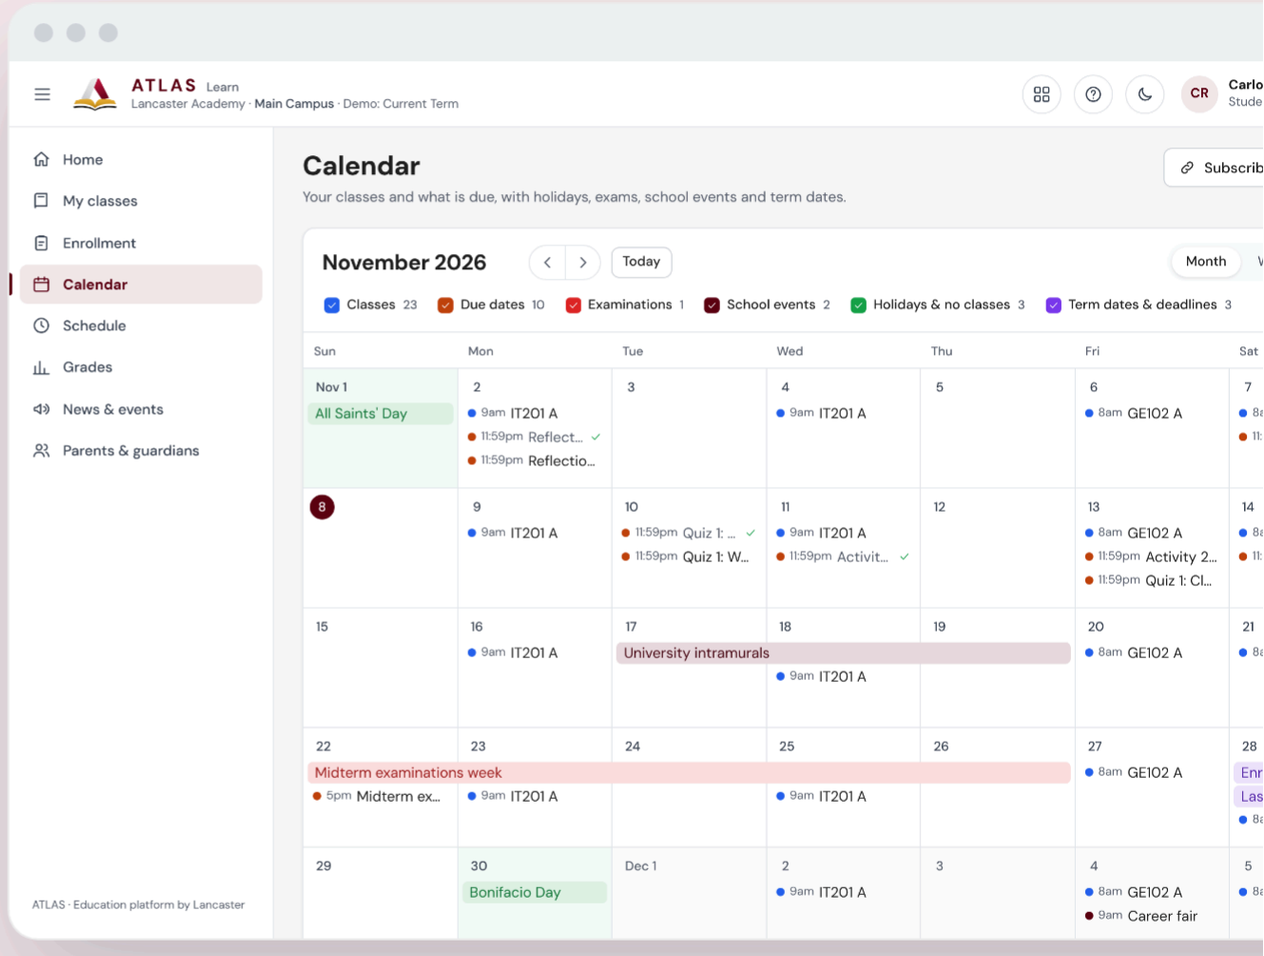

Mark a day without classes and meetings disappear from everyone's calendar.

Parents see each child

As far as each link allows, with meetings just for them.

On any phone

Subscribe from Google Calendar, Outlook or an iPhone.

FOR ADMINISTRATORS · NEW

Your school. Your rules.

Change how ATLAS works without calling a developer, and see who changed what.

Settings center

All 112 settings of the five systems in one search, each compared with its default.

History and undo

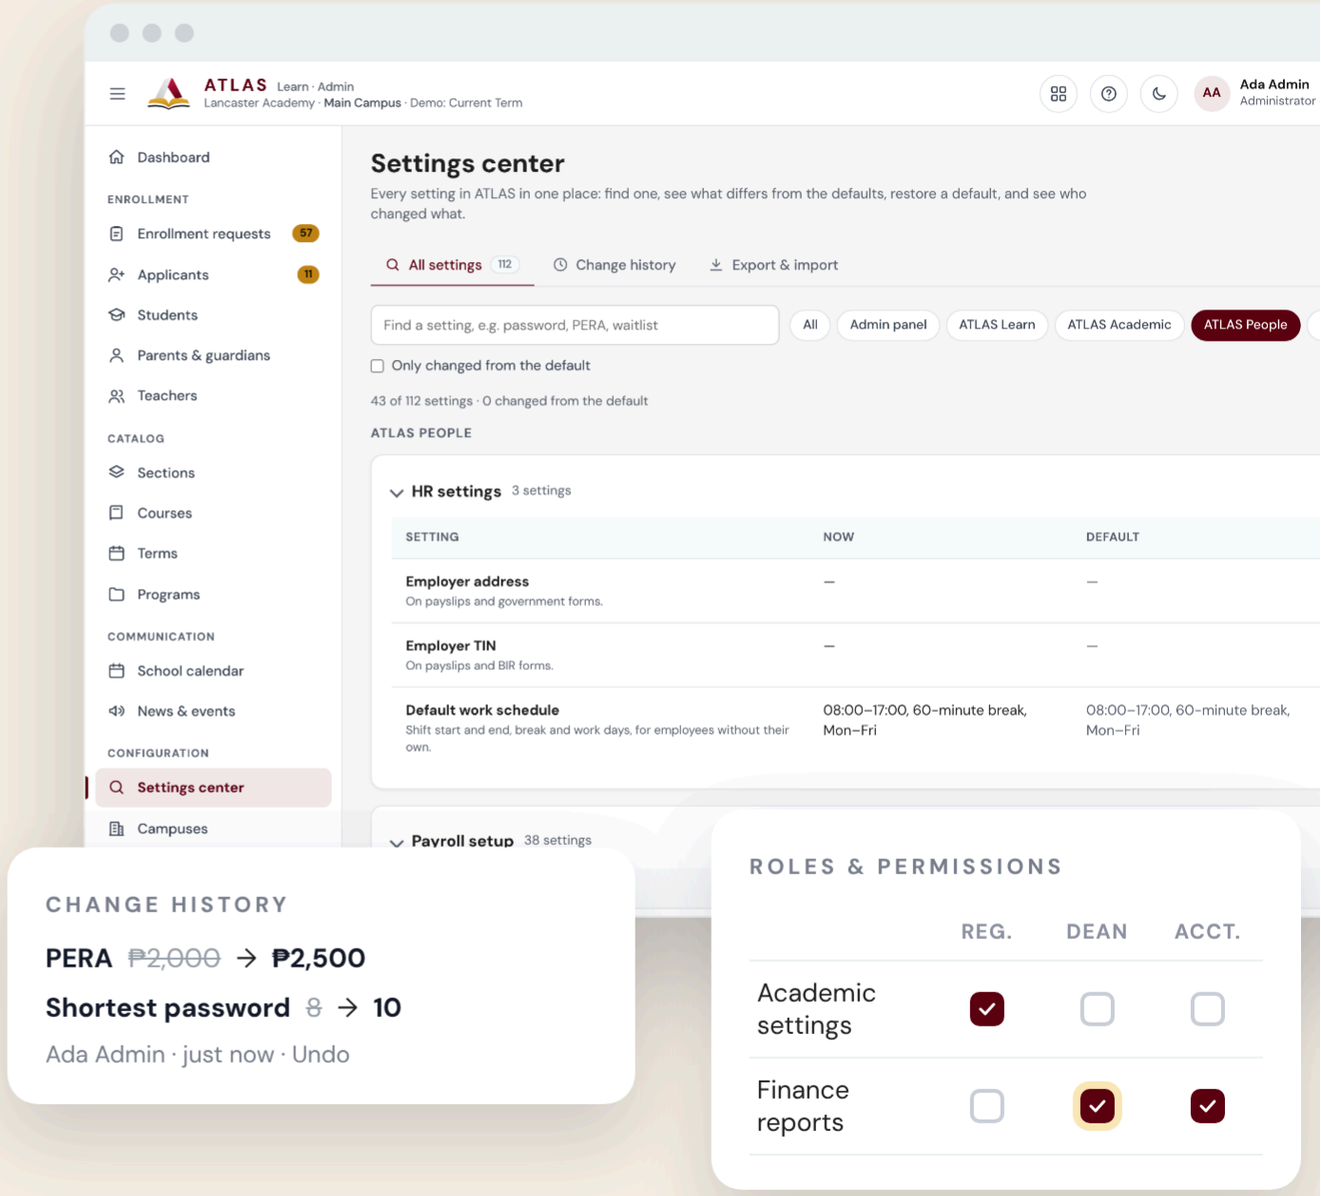

Who changed a setting, when, from what to what; undo in one click.

Roles and permissions

Decide what registrars, deans and every office may do.

Guides that keep up

A guide for every role, updated with every release, and editable by the school.

FOR EVERYONE

Each person sees their school.

Students

LEARN · ACADEMIC · FINANCE

- Classes, quizzes, grades and the calendar
- Enroll, evaluation, COR and documents
- Their official receipts

Parents & guardians

LEARN

- Grades, attendance and missing work
- Each child's calendar
- Only what each link allows

Faculty

LEARN · ACADEMIC · PEOPLE

- Lessons, quizzes, attendance, gradebook
- Grade sheets to the dean and registrar
- Time clock, leave and payslips

Registrar & deans

ADMIN PANEL · ACADEMIC

- Enrollment, sections and waitlists
- Records, curricula and approvals
- Transcripts and CHED reports

HR & payroll

PEOPLE

- Employees, attendance and leave
- Government payroll and bonuses
- Payroll sent to Finance

Finance offices

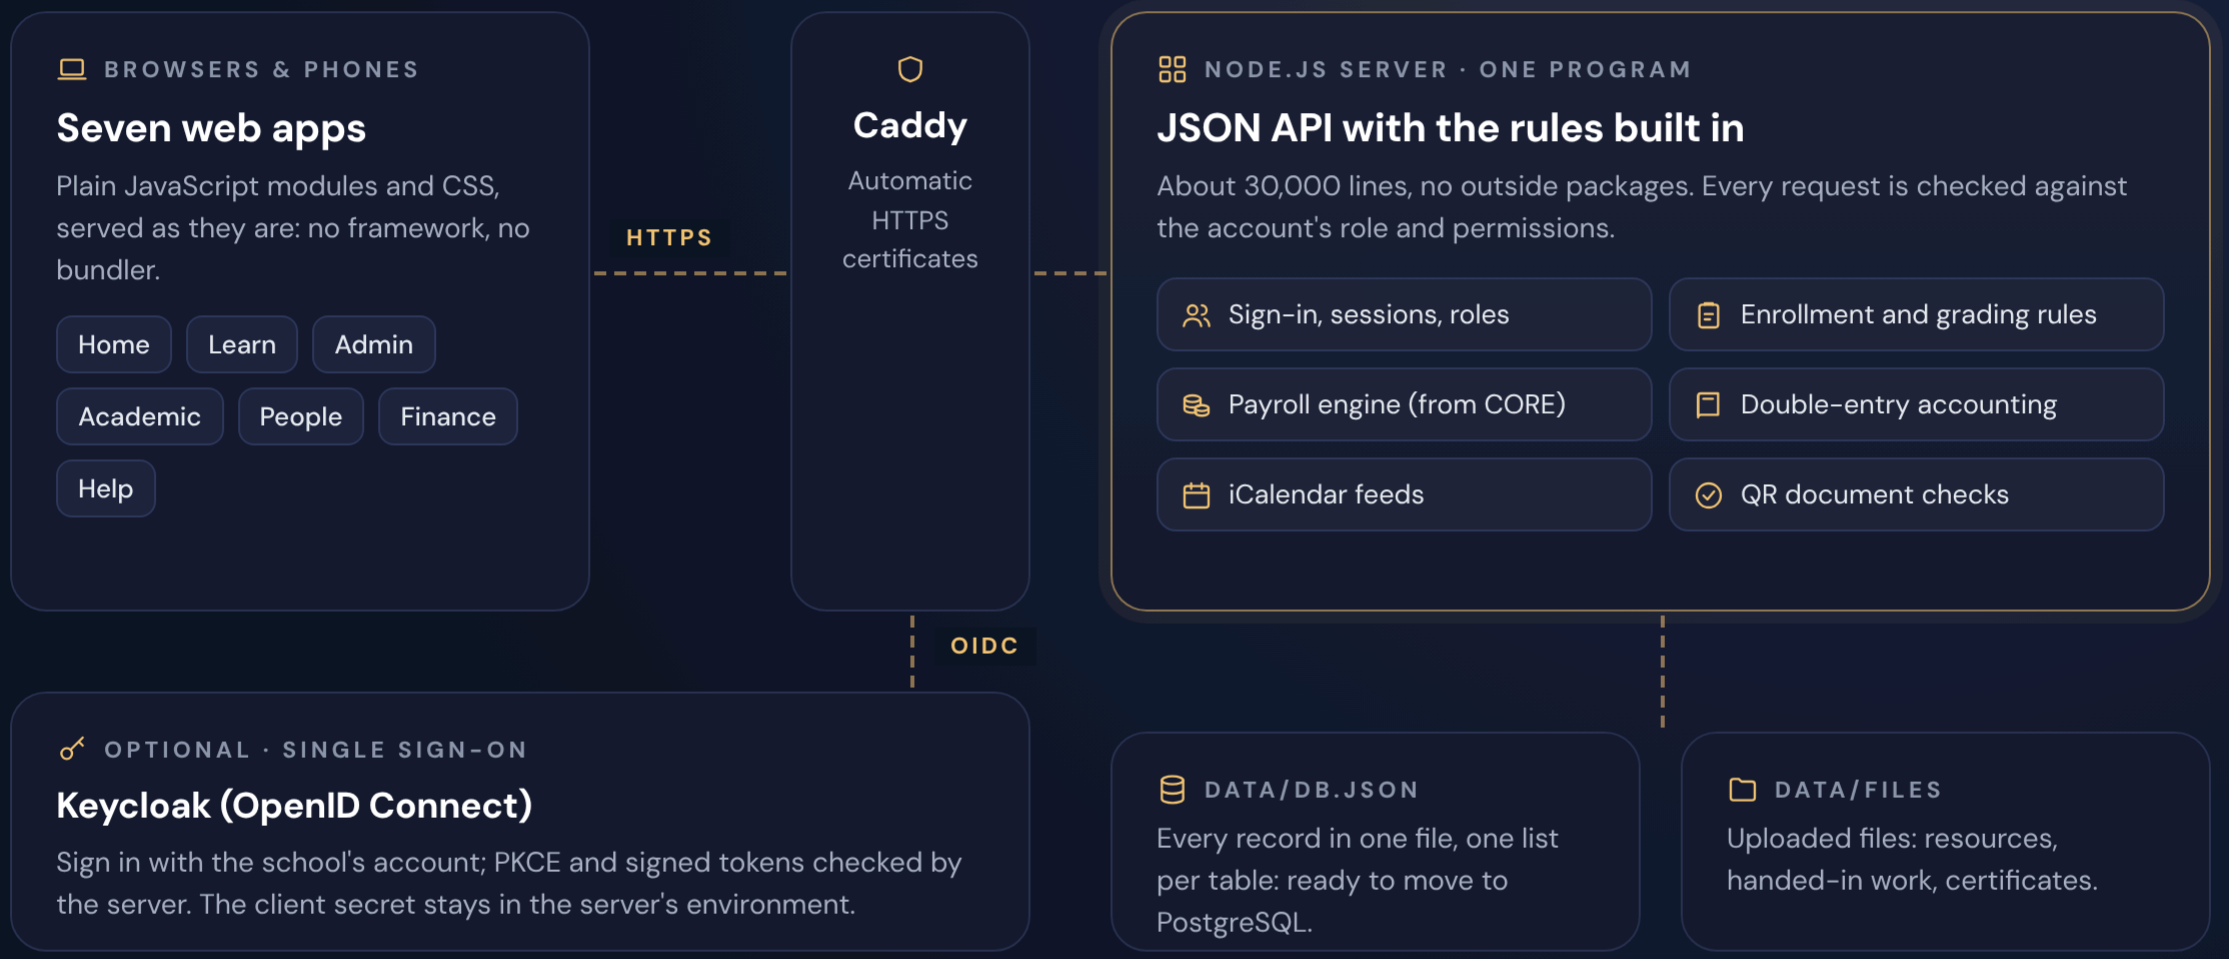

FINANCE

- Budget, accounting and cashier
- Supply, property and approvals
- Statements and BIR reports

UNDER THE HOOD · THE BACKEND

Simple to run. Built to last.

ATLAS is built like CORE: one Node.js program that uses only Node's own standard library, browser apps with no build step, and all records in one data file. Nothing to license, nothing to keep patched but Node itself.

0
outside packages to install or patch

100+
automated tests run before every update

1
server for every system and campus

18+
any Node.js from version 18

WCAG
2 AA checked, light and dark, desktop and phone

SECURITY

- Passwords hashed with scrypt; lockout after wrong tries
- HttpOnly, SameSite session cookies
- Audit trails: settings, Academic, Finance

BACKUPS

- A copy of the data every night, kept 30 days
- A snapshot of the whole disk every day, kept 7
- Download a backup from the Admin panel

WHERE IT RUNS

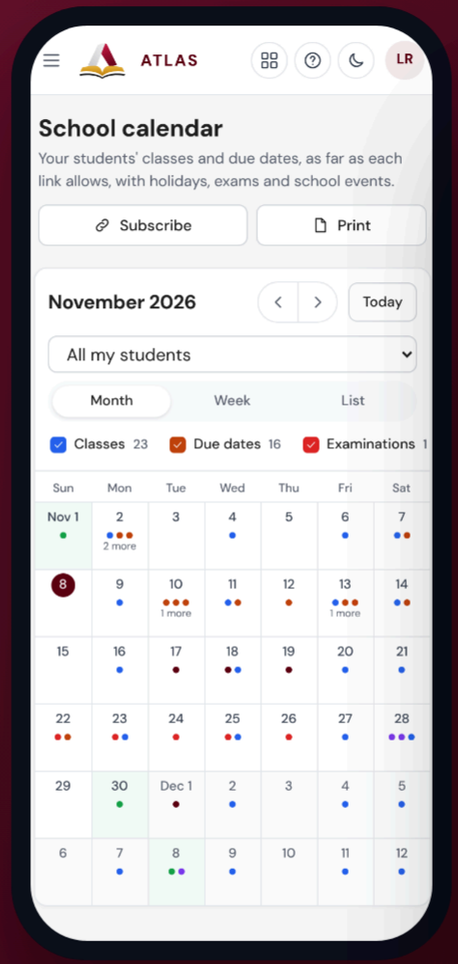

- Amazon EC2 (Ubuntu), Caddy and systemd
- Or one Windows or Mac computer on the school network
- Updates install only when every test passes

ON YOUR PHONE

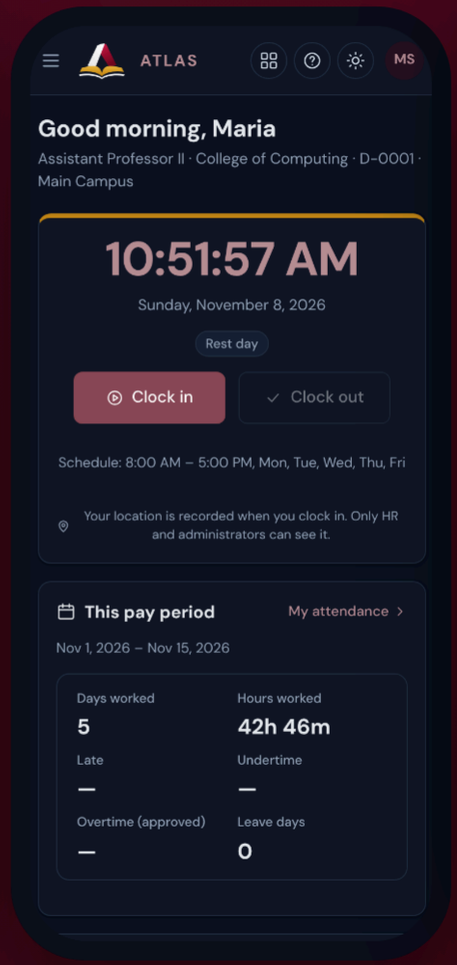

In every pocket, day and night.

Every screen works on a phone, in light or dark mode: no app to install.

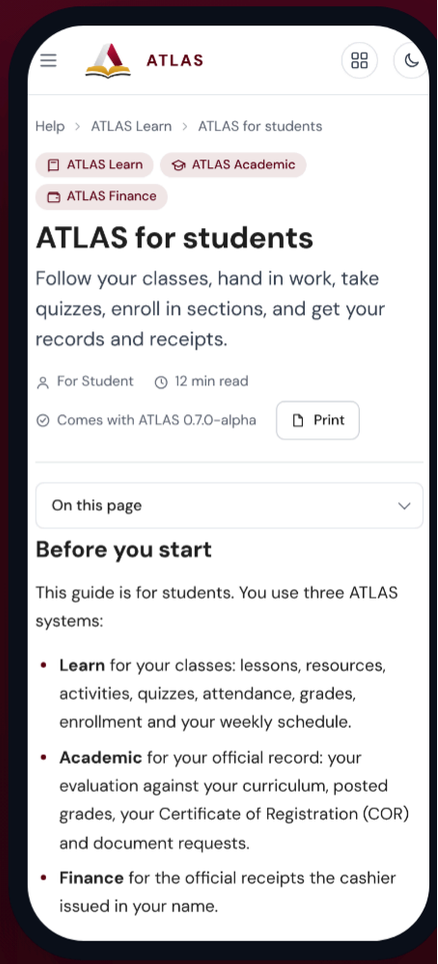

- The calendar, with a dot for each class and due date
- Clock in from My day, at the campus
- A guide for your role, one tap away

PARENT · CALENDAR
